

Commission for the Arts Meeting

Sept 24, 2008

7:00pm (Crystal City Policy Directives)

3700 S. Four Mile Run Drive

Topic: Crystal City Planning Process; Policy Directives

Anthony Fusarelli gave a staff presentation on the process to date, highlighting key elements of the Plan and Policy Directives, focusing on arts related elements.

Questions and comments that arose by COA members during the meeting included the following:

- ✓ Does the plan prioritize the variety of open space or public art related goals to be achieved in terms of how money or contributions would be directed for implementation?
- ✓ Has the county received or can it anticipate incentives or assistance from federal agencies given the impacts expected from BRAC?
- ✓ How does the existing residential and office employment composition compare with the expected composition resulting from build out of the plan?
- ✓ It would be nice to know what priorities the plan would set for achieving various elements for the arts, rather than having broad recommendations that refer back to the Public Art Master Plan.
- ✓ What is the planned schedule moving forward with the Crystal City Policy Directives and the Plan in general?
